

HYDRIC-SPRAY

www.hydrospray.com

Hydro-Spray is a company owned and operated by car wash owners dedicated to building the best touchless automatic equipment on the market and the NEW "Cobra" exceeds even *their* expectations.

Introduces...

The **"Dual Tower Wash System"** blasts the vehicle on both sides simultaneously with so much wash pressure, the customer actually feels the **"Cobra"** difference.

See the **COBRA** in action at www.hydrospray.com

- **Washes up to 20 cars per hour.** Our rotating wands still outclean anything in the industry.
- **Enhanced tire and rocker panel cleaning** with the cleaning heads fixed to the tower, not to the floor, applying full strength tire cleaner during pre-soak pass.
- **Simpler construction, much lighter weight, fits in a 10 foot high bay, easier installation, less moving parts, no heated track required, no hydraulics, and stainless steel carriage assembly.**
- **Sensors measure the car and put the washing nozzles as close to the vehicle as possible.**
- **Our system gives you the option to record with color cameras everything that goes on, storing it for 30 days. COBRA can also "call" you if it or a customer needs assistance.**

THE COBRA

TIME IS MONEY

"Making hay while the sun shines" is crucial to the successful car wash operation. Bad weather and overnight, unused potential rob the facility of revenue. Rapid throughput of thoroughly clean cars is the answer, and cars per hour will determine the level of success of the car wash operation. Listed below are the actual wash delivery times of several of the most popular car wash equipment brands.

THE COBRA® by Hydro-Spray®
 THE WISE CHOICE FOR THE \$UCCESSFUL CAR WASH
 Hydro-Spray's new Cobra offers the best of all features.

- Quality Construction
- Superb Wash Quality
- Rapid Through-put
- Extreme Versatility
- Competitive Equipment Cost

Brand	Wash Time (Min.)	Price	\$ / Min	Potential \$
A	7.98	\$7.00	\$0.88/Min	\$528
B	6.87	\$8.00	\$1.16/Min	\$696
C	6.68	\$8.00	\$1.20/Min	\$720
D	4.92	\$8.00	\$1.42/Min	\$852
Cobra™	2.60	\$8.00	\$3.08/Min	\$1,848

Notes:

1. Best Wash selected and timed from car in place till wash end.
2. Based on 12 hour day less 120 minutes of wasted time loading washes & car entry.

Integrated Computer Management

Hydro-Spray's Basic PRECISE Computer Management System offers total operational control. It is standard on all Automatics and Integrated Self-Service Car Wash Systems. With a click of a mouse you can run your entire operation. You can troubleshoot or control and reset facility equipment. It also allows you to change prices, water temperatures, get coin counts, change program cycles, and many other car wash functions, all from the comfort of your home or office.
